連載開始から何度も取材に通った
東京スカイツリーが、
現実世界でもついに完成しました。
建設の途中経過を描けたのはホントに幸運。
連載とのタイミングが絶妙でした。
作中では半年ぐらいで
出来上がっちゃってますが、
実際は二年以上かけて建てられてます。
それにしても、成長早かったし、
遠近感が狂うほどデカイし、
仕事場のマンションから
ずっと見守り続けてたので
なんかもう　感無量です。

Shut up... These are Yodai's instructions!
If you're afraid, then run away
Are you sure you want to wake up everyone?
There are some really evil people in here you know

even if we managed to flee
If this continues ...

How can we truly escape?
And since our hands have been marked...
But...
The Diet is currently floating above the capital
It's almost like it's going somewhere

The guards here have been wiped out

These are all heavily armed espers...

The Diet...

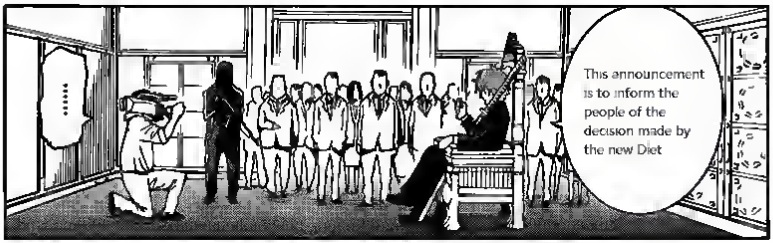
Merry Christmas
Humanity

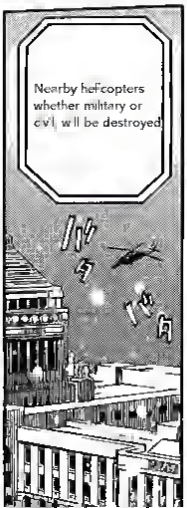


……
This announcement is to inform the people of the decision made by the new Diet

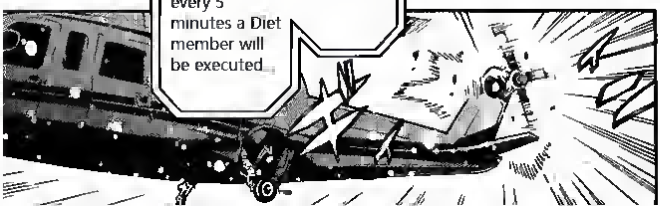
have no right to survive
Those who have not consented to my rule
ゴゴゴ
From this day forth, Tokyo will be under the control of espers

This is a new era of "change"

Self-Defense forces and police must disarm within 6 hours

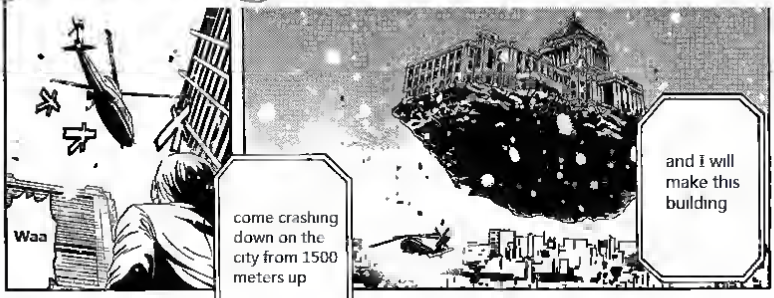


Nearby helicopters whether military or civil will be destroyed

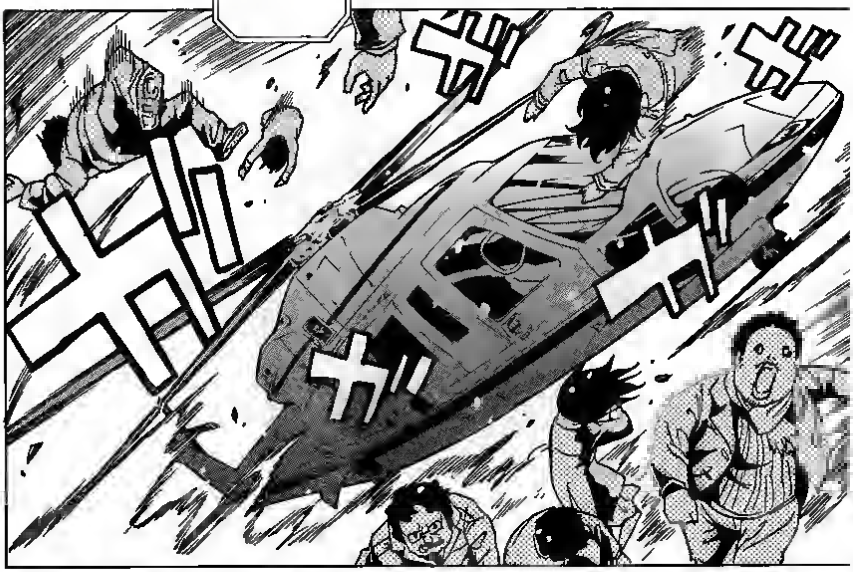


If not
every 5 minutes a Diet member will be executed

麒麟工作室製作

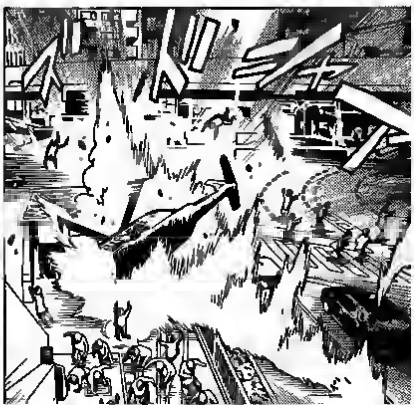


Waa
come crashing down on the city from 1500 meters up
and I will make this building



Do you really
plan to start a war?!!

Prime Minister...
Are you drunk!?!
How far do you plan to take this?

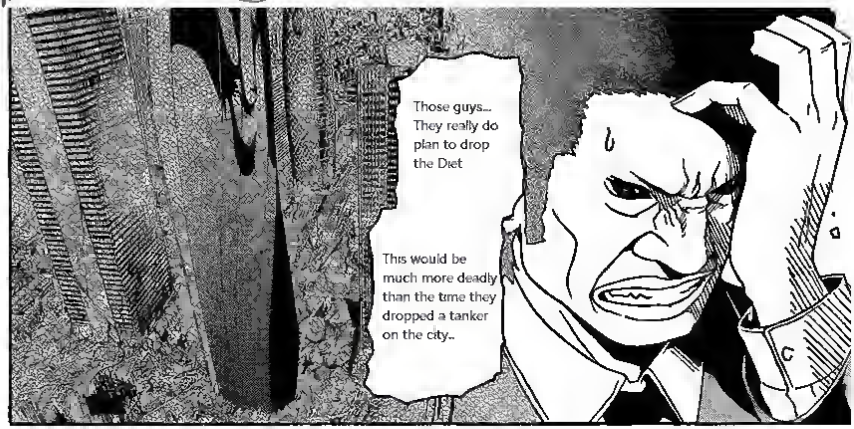


You should all make yourselves well-prepared
If you are looking forward to the peace of tomorrow

How can they do such a thing
and accept our world
then obediently surrender

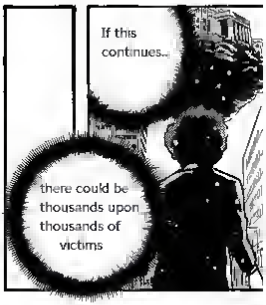
will the true paradise start
Only then

Officer
How did it come to this?
What the? This is



Those guys... They really do plan to drop the Diet
This would be much more deadly than the time they dropped a tanker on the city..

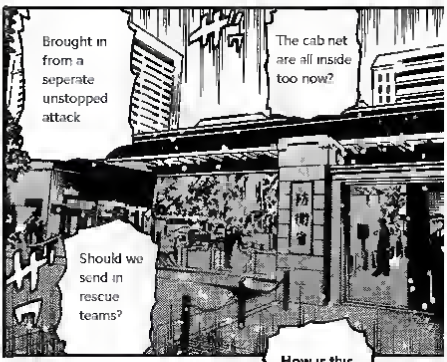
Contact the Ministry of Defense now
The cabinet also became hostages?
If only the "white girl" was here now...
Then who is in command?



If this continues..
there could be thousands upon thousands of victims

Hello.. send out some unmanned scouter planes
if we only depend on the Japanese Government, we re powerless

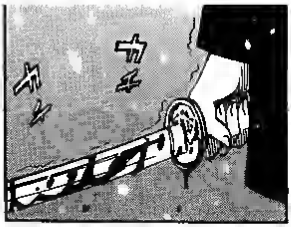
Fighter jets are ready to go
This way we can keep an eye on the US military's movements



Brought in from a seperate unstopped attack
The cab net are all inside too now?
Should we send in rescue teams?

How is this sort of thing one man s decision?
First, have the people take refuge

麒麟工作室製作



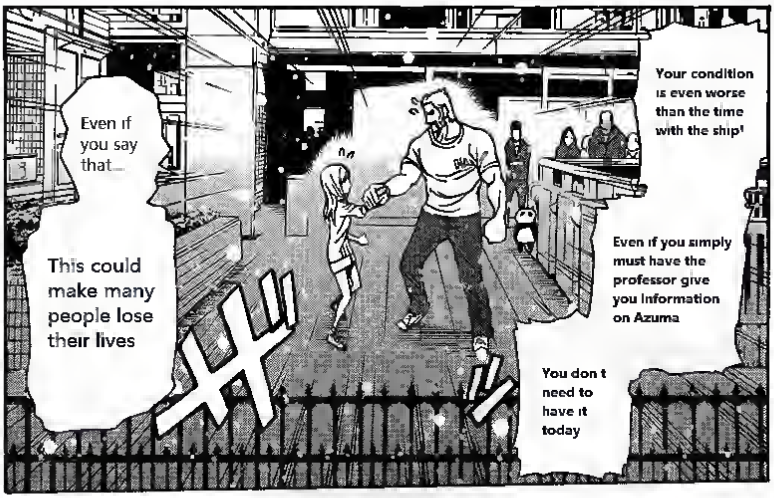
This isn t a matter of right or wrong

No matter the justification
the professor s methods are wrong

Kyotaro
...

crossed the point of no return
I have already...

You still want to go to the Diet?
What can you even do?!!
Abso-lutely not!!

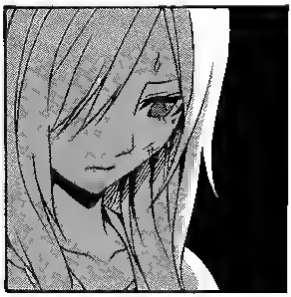


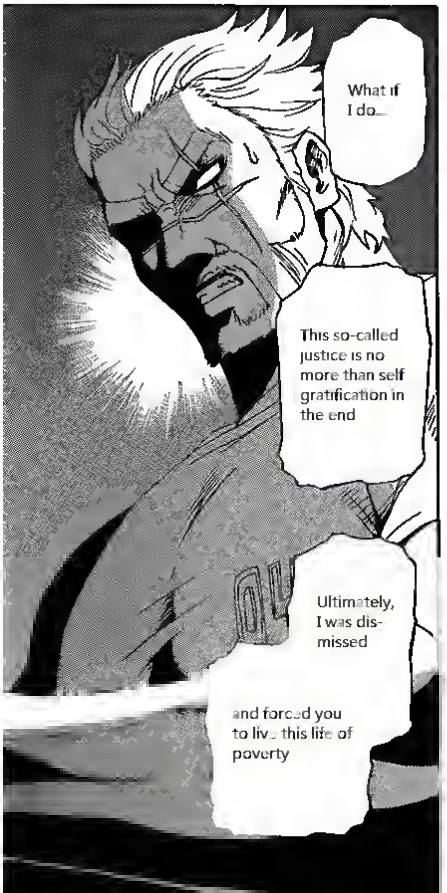
Even if you say that...
This could make many people lose their lives
Your condition is even worse than the time with the ship!
Even if you simply must have the professor give you information on Azuma
You don t need to have it today

I don t care about irrelevent people
Just pro tecting you is enough

It ll be bad if this drags on ..
Oioi.. They just reunited and now this
Like hell! Alone we can't compete with them!!

Let me go
You never would have said such a thing before—

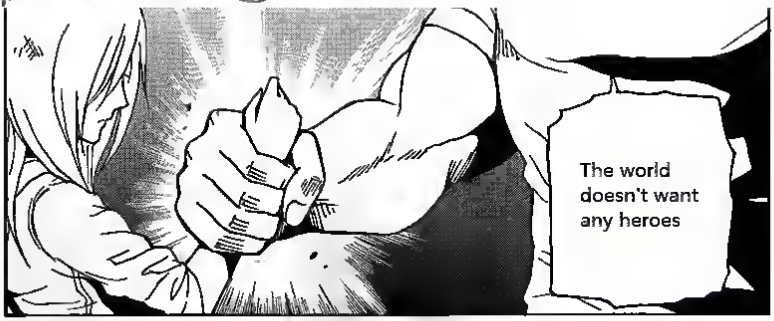




What if I do—
This so-called justice is no more than self gratification in the end
Ultimately, I was dismissed
and forced you to live this life of poverty

Why?
You had your heart set on carrying out justice while in Interpol
Do you now regret it?

麒麟工作室製作



The world doesn't want any heroes

I
don't want to see
the face of my dying daughter again

Even if we were poor
my father was still a hero in my eyes

麒麟工作室製作

I always
hoped to become a person just like my father

Yes
Perhaps we can't change anything

but
that stands against them
there must be an esper

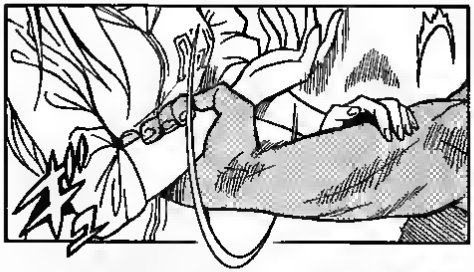
afterward, espers are not completely regarded as bad people

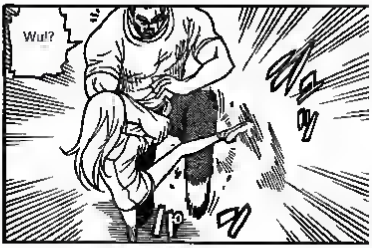
This way

麒麟工作室製作

Here's the thing...
the people don't know that

You're not an esper anymore!
Waiiit!





Wu!?

I'm still the same "white girl"
Everyone still thinks
Wua!!

I'm sorry for always being so selfish
Sorry Father
Please wait, Rinka!
Don't go!

Pay me no mind I'm strong,
just like my father
But
I absolutely can't die

It was purely an accident
Please don't get angry, I'm truly sorry!

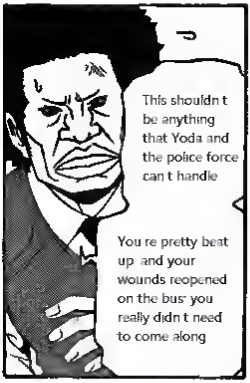
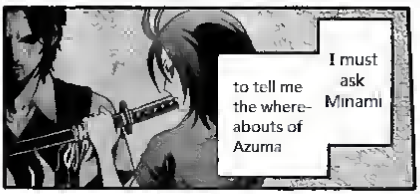
I can't really help with anything
Without ESP



This shouldn t be anything that Yoda and the police force can t handle
You re pretty beat up and your wounds reopened on the bus you really didn t need to come along

Is every thing alright?
Even if you hide here it's fine
Because your father and I agreed to make sure to bring you back safely



I must ask Minami
to tell me the where-abouts of Azuma

How-ever

I'm afraid, yes, but so is everyone
I'm OK
Please don't die on me, Mr Nabeshima

The police force has broken in?
But the police department was given no such orders...

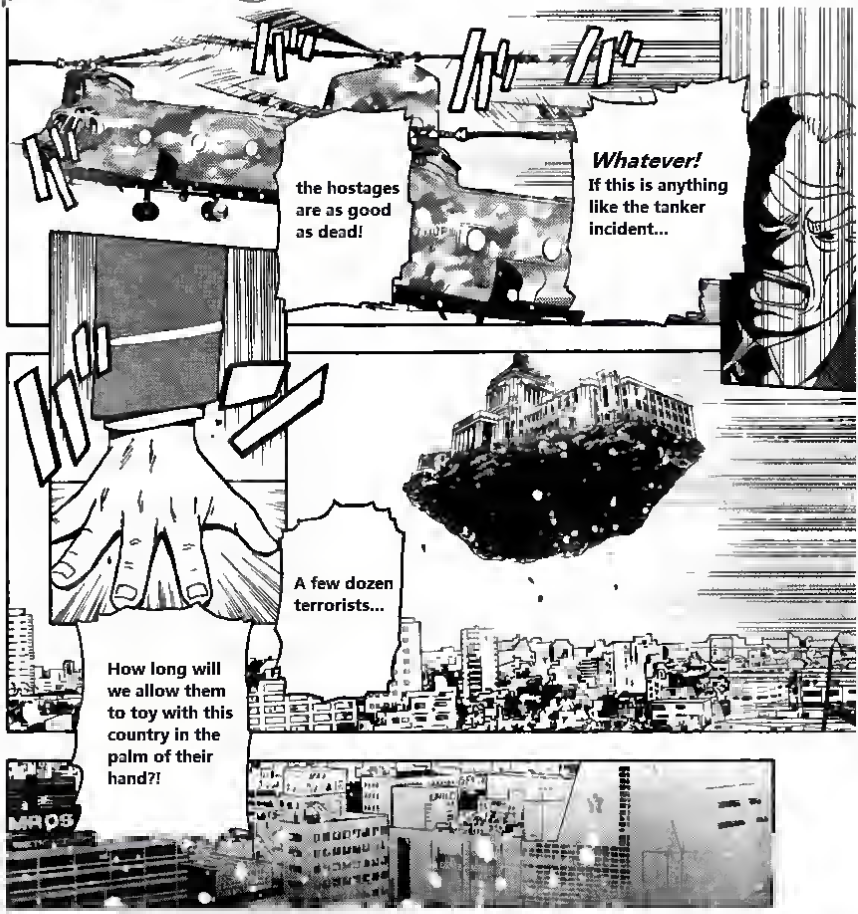
But the hostages could...
Only a battle
This is the path I have chosen



the hostages are as good as dead!
Whatever!

right now, we have no choice but to borrow Peggi's flying ability

Pei!
Hooray!! We finally found you!
I'll never let you separate from me again

I'm going
to the Diet hall to save my mom
You've actually gained ESP
wh ch means you ve lost your chance at the good l fe
Ironically
Since I was little I attended school without any time to play
studying hard without complaint
It has always been my dream
to participate in the Diet, like my mom
I never imagined
that things would turn out like this

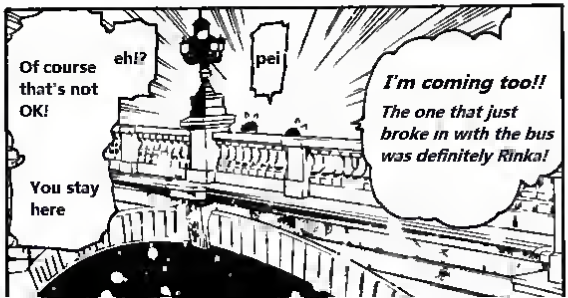
麒麟工作室製作

The worst ending this
how ever
If I have the ability to change that ending

I absolutely
can't run away

Really the future is...
powerless to grant your wishes

Hmm...



eh!?
pei
Of course that's not OK!
You stay here
I'm coming too!!
The one that just broke in with the bus was definitely Rinka!

ah...

麒麟工作室製作

The sound is coming from there –
An enemy!?
She's invisible

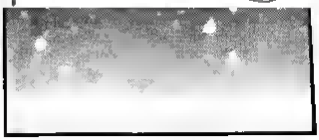
Well
why don't you count me in on this?
As I am also looking for a way into the Diet
This voice

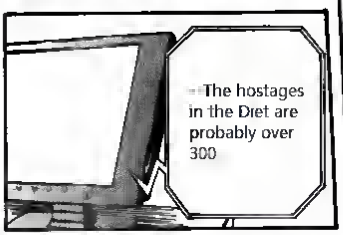
Isn't this just perfect?
You seem to have gotten strong, Murasaki
Who's there!?
!?
.....?
and the more fighters we have, the better

If really is...

Legs !?
If Rinka is still living, I want to go all the more

麒麟工作室製作





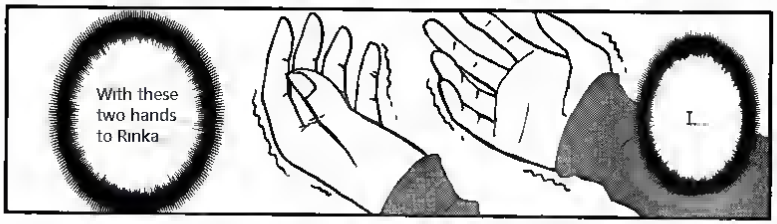
The hostages in the Diet are probably over 300

What the hell is the Self Defense Force doing?
Don't worry they can't come here
Can't they just fire a missile or something?
Idiot!
go take some photos

It was fortunate that during the tanker incident, the "white-haired girl" came to save us
This time though, if the Diet falls from the sky...

I won't accept this
Putting aside her duel with me to get herself killed in there

yet
The time at school, Rinka had also come to save us...



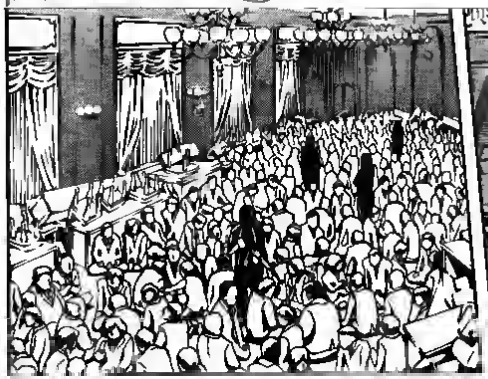
With these two hands to Rinka...
I...

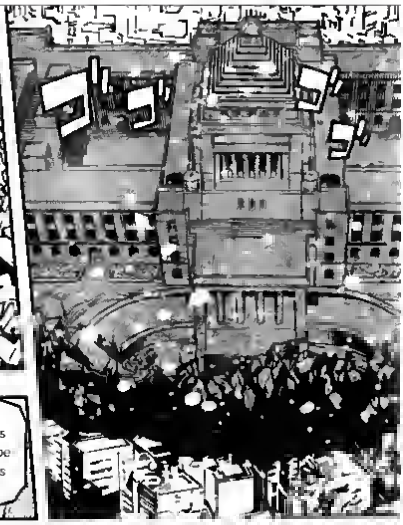
I've...
done something I can't undo

always making fun of her...

Sorry
Sorry Rinka!!
I've been horrible

even though I only...
wanted to be friends with her



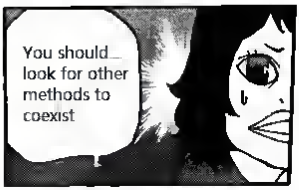


ゴゴゴゴ

We will never be saved
It's hopeless

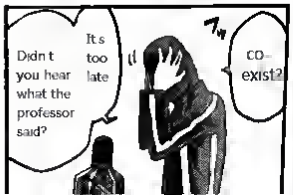
In fact, I'm supposed to properly protect him...

If I had known...
that this would be the end..
I would have been a better mother to Ayumu



You should look for other methods to coexist

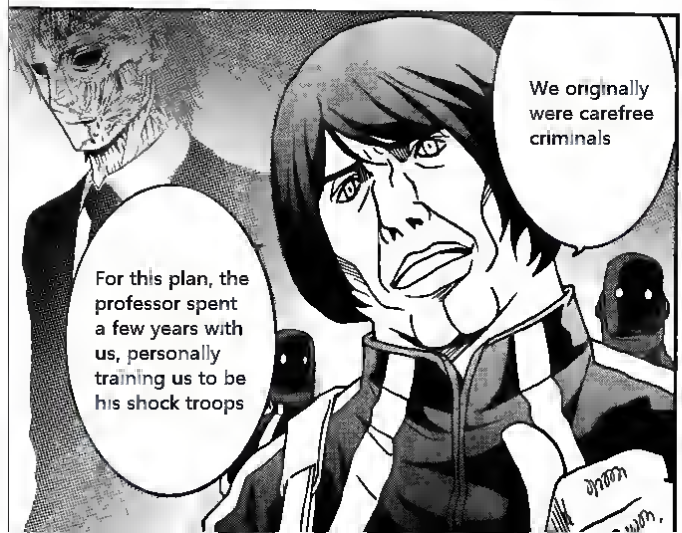
Is that why you did all this...
even though it marks you as an enemy to all humankind?
You wanted to create a world where espers can live freely, right?
Hey, you...



Didn't you hear what the professor said?
It's too late
co-exist?

We are the world's new masters
To continue killing humans until they understand,
This is our only available option

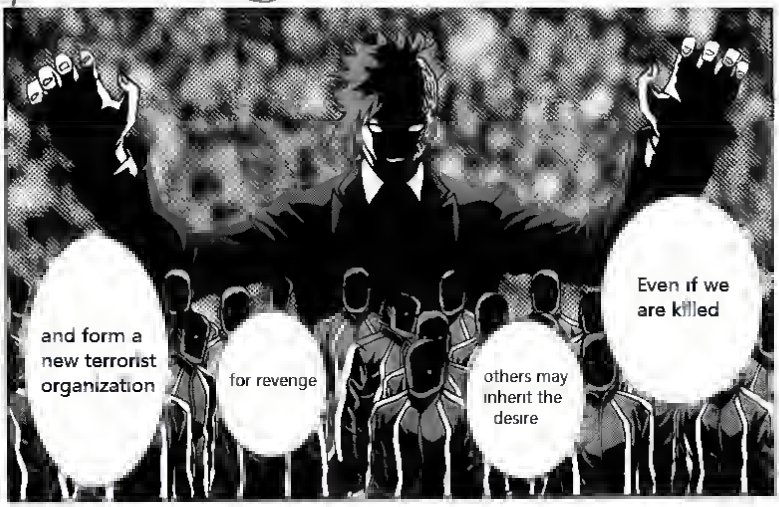
Surely your extinction is also a possibility
Can you really do something as ridiculous as conquer the world?
……!



We originally were carefree criminals
For this plan, the professor spent a few years with us, personally training us to be his shock troops

We've been long aware of that possibility
But the important thing is how far we can go right?

麒麟工作室製作



Even if we are killed
others may inherit the desire
for revenge
and form a new terrorist organization

and someday the era will change

for as long as this sick society continues

This type of terror would spread person to person

was able to make me into someone who could change the world
But the professor
Originally, I was just a murderer
Did you know?

"Terror can shake people's hearts"
Isn't it the villain's gospel?

We are the police!! Drop your weapons!!
With the courage to try
You bunch of lackeys

If we don't film this...
Hey... What are you doing!?
Let's catch up to them...

A new "race" of espers
will be born in Tokyo

The espers
gradually begin to awaken

Never mind
Wua
Chief!?

Aaaa stay back!
iaa

麒麟工作室製作

The espers will naturally hold the city in the palm of their hand
Society shall collapse...
This is our victory

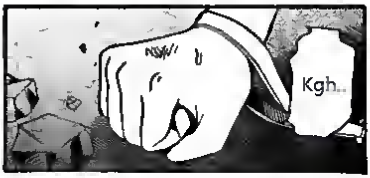
Even if you defeat me
People like you who only care about what's in front of your eyes...
will never have the power to protect others

Rinka!

ugh

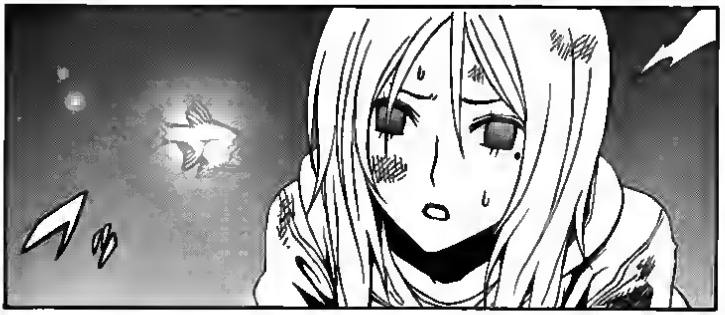
Mina-mi!

If you don't regain your stamina here...
Your strength has probably reached its limit
Don't force yourself
You have been fighting non-stop since we left the reception facility



Kgh...

I still don't know where Azuma is...
But..



Welcome to the esper reception facility

If it's now...
I still can...

Don't worry
I'll be ok

Ever since that time ..
I've been mentally prepared

Wait Rinka
Have me go instead

Gueh?
I'll need you to accompany me a bit longer ..
Sorry Peggi..

Gaah
If we are defeated here
then
we will have nowhere to return to

The city has erupted in a wail...
I've never heard anything like this...
my head is about to split...

Help!

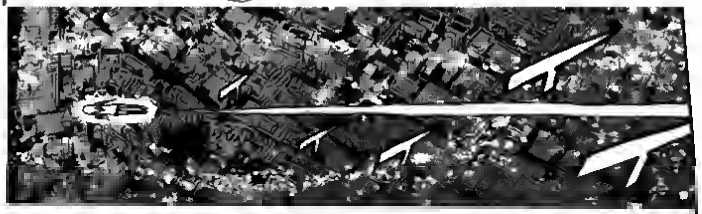
You must stop...
We have indication...
the location of the "ark" has been discovered
at the heart of the school of fish
The professor is definitely
Enough is enough!
Quit eating before work
sister

麒麟工作室製作

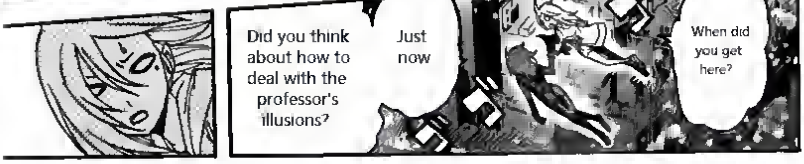


Gu?
Pegg
If we fly to skytree
it's too dangerous, you should return
Tell Murasaki and the others
thanks for coming
Tell them this...

You aren't giving up are you?
Hey

Guah?
(How am I supposed to tell them)

Wouldn't your father cry if you were killed?
Black Fist!?



When did you get here?
Just now
Did you think about how to deal with the professor's illusions?

But if I use this, his illusions will be useless
Listen. Catching the professor at close range is impossible
fake
real

Of course You re a total meathead
Even though you already lost once

麒麟工作室製作

A hand grenade!? When did you steal that from?...
I stole it from an enemy
Because I only have one. I'll use it as close as possible

That is to say...
You and I could fight together?

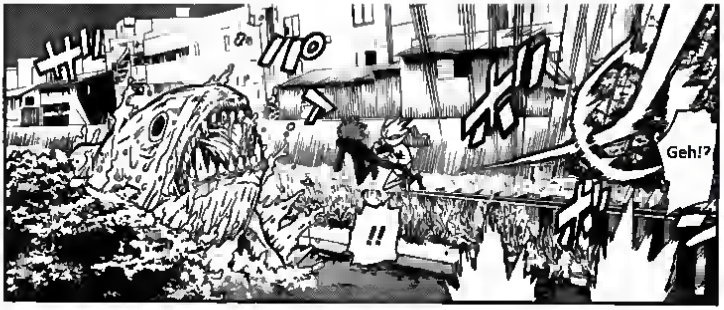
What a pain
Eh...

Even though we've been discovered immediately

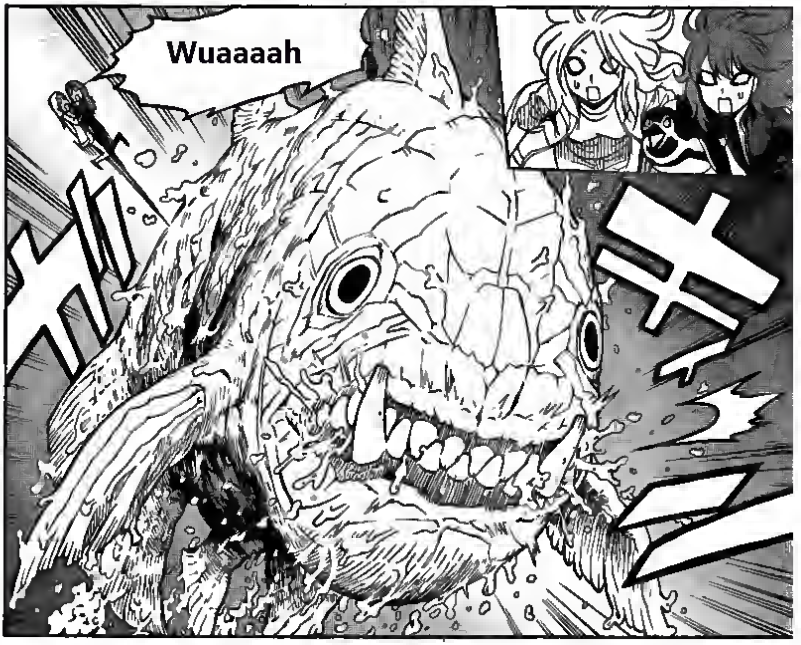
麒麟工作室製作

give me a good intro-duction to Uncle!!?
If we make it back, could you...

麒麟工作室製作



Geh!?



Wuaaaah

Do you live under a rock? That kind of fish can't exist
Is it edible?
What the!?
How!?
A fish!!?

That scumbag professor
Looks like we've been noticed

麒麟工作室製作

gueh

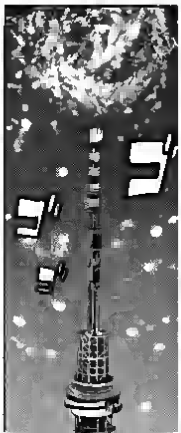
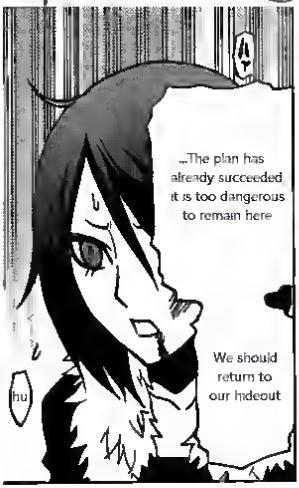
How are there still all these trashy fish?

no matter
I'm so sorry
hu
I'm here as their opponent
hu

Uru-shiba...!



麒麟工作室製作



...The plan has already succeeded it is too dangerous to remain here
We should return to our hideout
hu

But this isn't the sort of thing I can handle
Looks like I stumbled into something big
I planned to look for opportunities to steal the "ark"

Go ahead and return first
No
I still need to stay and wait for some people

.....

You're giving me the ark!?
Eeh !?
Kotsuki, please take care of Minami and the "ark"

Although this may be disappointing for those who died following me
I still haven't achieved my true objective

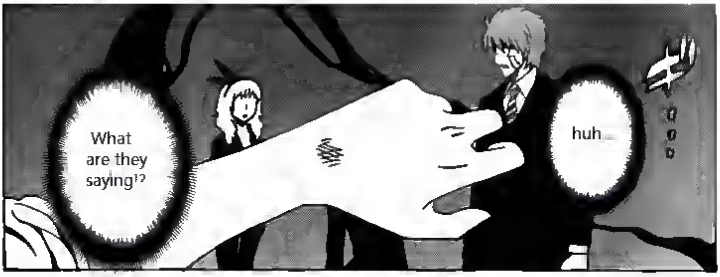
Is this also an illusion?
I... can't open my hand

Elder sister!?
Sure enough you were hiding here Black Fist

It is merely an insurance
I can't have you and the "ark" fall into their hands

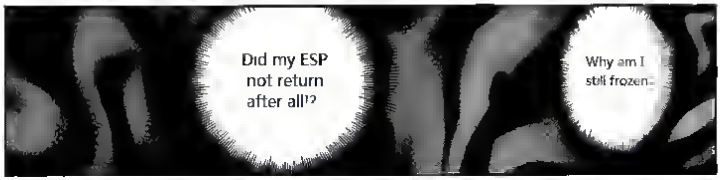
Then... you truly intend
?
to use your own life as "bait"!?

Leave, Minami
Afterwords please prepare according to plans



What are they saying!?
huh...

If I can pass through physical objects
That recent glowing fish should have entered my body...



Did my ESP not return after all!?
Why am I still frozen...

.....

Is it really okay for me to do this?

After all I've gone through to get here...

I can send in conflicting signals
and offset the illusion
As a telepath myself

Why don't you fire, Kyotaro?
Well done

If you want to kill me, now is your best opportunity
Sure enough, fate has brought us together again

Just why...
haven't you killed me?

Did you want me...
Why did you keep letting us go?
you've had many opportunities
If you truly wanted to kill me

It is because
I sense the miracle inside of you

You mis understand Kyotaro

麒麟工作室製作

hu
hu

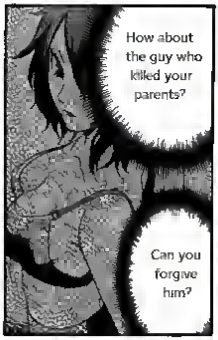
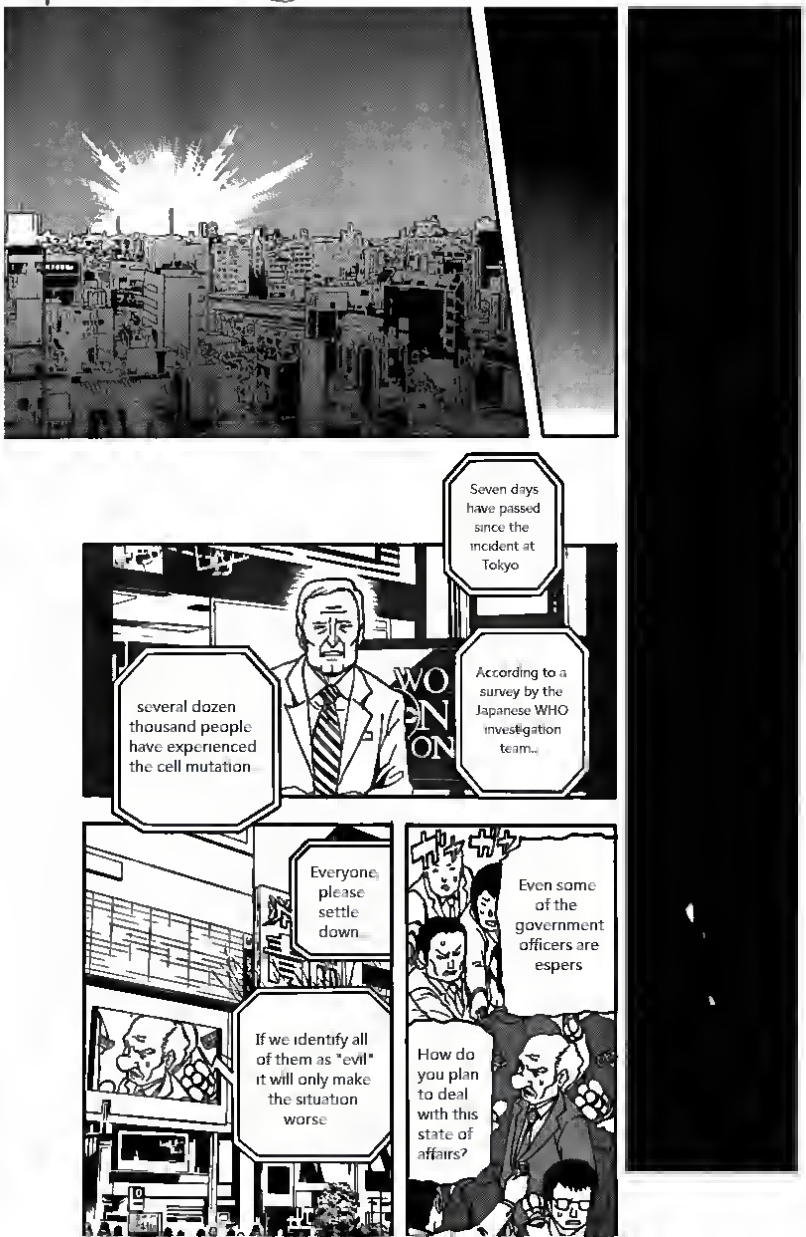
The professor...
from the very beginning...



How about the guy who killed your parents?
Can you forgive him?

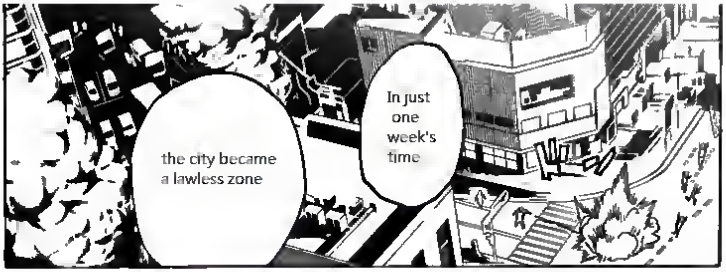
The dark council will definitely let something slip

heroes ...?
Exactly what is going on here?



Seven days have passed since the incident at Tokyo
According to a survey by the Japanese WHO investigation team...
several dozen thousand people have experienced the cell mutation
Everyone, please settle down
If we identify all of them as "evil" it will only make the situation worse
Even some of the government officers are espers
How do you plan to deal with this state of affairs?

麒麟工作室製作



In just one week's time
the city became a lawless zone

How do we proceed?
Schools and
even the trams aren't operating
Riots are everywhere
and esper-related crime is on the nse

we can only hide away
the world from changing
we still couldn't prevent
Even though we fought our hearts out

Even though we finally reunited after all these hardships
……

I couldn't do anything
In the end...

It's not over...
nothing is finished yet...

Do you remember that?
Your plan to be heroes
Didn't you say it before?

How ever...
the situation has gotten much worse...
Well compared to that time

麒麟工作室製作

Our justice
has not had any changes

that is our instinct

Believe in those feelings
.....

certainly have not changed
The things we ought to do

ドッ

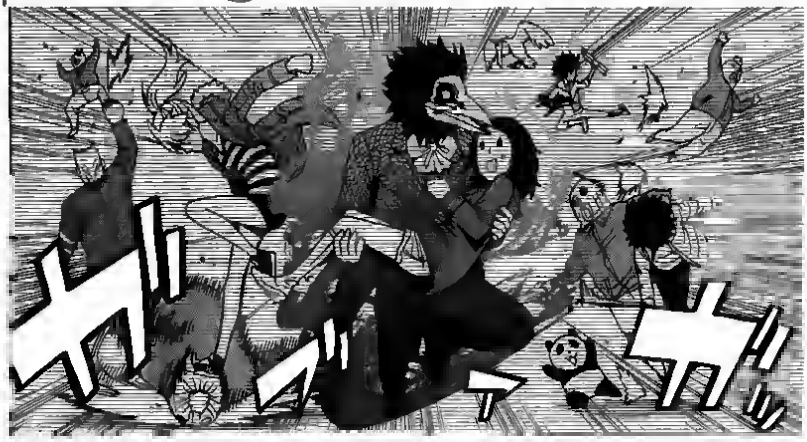
that..
Please take
care of Minami
and the "ark"

麒麟工作室製作



Kyotaro!?
Rinka
.....

I know that the meaning of the word "justice"
is different for different people...

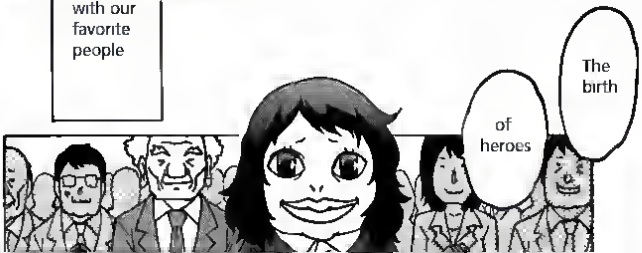
I know my limits
I know the terror of revenge

麒麟工作室製作

If I can become someone's hope
Even so

No matter if you are an esper or a human
Together, we will completely defeat "evil"
If we share our memories
with our favorite people

Then I'll have to see things through to the very end
until the world can make its recovery
Act as a shield for the weak...



The birth
of heroes
